

Integrated Impact Assessment Statement

2026/27 Savings and Recovery Programme

Supported Accommodation

Block contracts exist for social care purchasing where the partnership buy a fixed volume/capacity of a social care service type on a recurring basis at an agreed rate. In many situations this is an economical way of purchasing, but it carries some risks relating to full utilisation of purchased capacity to ensure value for money. This proposal is to review and optimise social care block contracts for Place to Live supported accommodation and Learning Disability overnight support.

There will be no impact on individual service users as this review will be managed via existing contract variation processes. A full Integrated Impact Assessment will therefore not be required at this time.
